

The newsletter of the UK Thermography Association

Issue 9; March 2000

Last minute booking for A World of Thermography 2000

Booking for the International Thermography Conference in Bath, 9th -11th March 2000 will remain open until the final morning. The three day programme is packed with over 30 stimulating presentations from the full range of thermography applications. Subjects from Astronomy to Zoology interspersed with the more usual papers on buildings, skin imaging and NDT. Speakers are coming to England from at least eleven different countries and the delegate list is filling up fast.

Exhibitors booked so far include Flir Systems, Land Infrared, Lambda Photometrics, CEDIP, University of Glamorgan and Instrument Hire. There is still some exhibitor space left, but book soon to avoid disappointment. The social programme includes a civic reception hosted by the Mayor of Bath in the ancient building of the Roman Baths in recognition of William Herschel's life and work in the city. On the Friday evening, the Conference Dinner at the 18th Century Pump Room promises to

The conference is supported by **Land Infrared, Flir Systems, CEDIP, British Institute of NDT, Chartered Institution of Building Services Engineers, Coxmoor Publishing, International Thermography Association, UKTA and BSRIA.**

Please tell anyone who may be interested, give them a leaflet and help to make this

Associations merge

The UK Thermography Association and the Thermology Society of Great Britain agreed at a meeting on 24th January to merge. The TSGB will become the Medical Thermology Group within UKTA. All members will receive this newsletter every three months

Like the Conference this merger should bring benefits to all members through 'cross fertilisation', transfer of the best practice from between applications.

Under a special arrangements with the publishers, 'Thermology International' the journal of the five European and American Thermology Societies, will be available free to all UKTA members for the year 2000. Subsequently any member may subscribe to the journal at the special rate of £20 per annum.

Herschel Lecture

the best thermography conference yet. - more leaflets available from the UKTA office. Check the UKTA website, <http://ukta.tripod.com>, regularly for latest information about programme, booking and accommodation. If you have difficulty connecting to this site try <http://www.bsria.co.uk/> which has a copy of the conference leaflet accessible from its home page.

Delegate fees: 3 days £310
 1 full day £165
 first ½ day £82.50
Conference dinner £33

Every Year the William Herschel Society put on a public lecture to promote understanding of the life and work of William Herschel. This year they celebrate the 200th anniversary of infrared in association with the World of Thermography Conference. Their speaker on Saturday 11th March at 19:30, is Randii Wesson, NASA Instrumentation Scientist in the Mission Operations Section at Caltech's Jet Propulsion Laboratory (JPL) which manages NASA projects that probe the deep space (translunar) environment of our solar system. His presentation is about the use of infrared imaging in space exploration outside the earth's atmosphere.

MAINTEC

UKTA will be at MAINTEC 2000, the top UK maintenance technology show, will be 28th to 30th March this year. As last year, a technical meeting will be arranged for the morning of 29th March. The topic has yet to be arranged, anyone who would like to make a presentation, please contact the Secretary
